

It's the big brother to the 6000 series liquid applicator. With the toolbar mounted to the front, the applicator has great visibility and control. Built to stand up to the extra-rugged conditions found in today's minimum tillage practices.

- Great row visibility and applicator control
- 32 1/2" of ground clearance on the main frame
- Double bar center section of 4"x6" heavy wall tubing
- 11' Center section with toolbar lengths up to 35'
- Adjustable wheel track 74" to 120"
- Heavy duty 8 on 8 hubs
- 750 Gallon fully drainable leg tank
- 1000 Gallon tank is optional
- Hydraulic folding wings and hydraulic lift
- 4"x4" Pole jack swivels out of the way
- Double bar tubular steel pole
- 16.5 x 16.1 Implement tires
- AG37 Coulter assemblies
- Adjustable tractor clevis
- Single or twin piston pump

Two Chrome Silica Coil Springs provide over 1000# of cutting down pressure. Bolt on dust cap with sealed Timkin roller bearings.

Hydraulic actuated press wheel drive single or twin piston pump. Adjustable drive wheel tension.
